**VAUGHN PODIATRY CENTER FINANCIAL POLICY**

- Your understanding of our financial policies is an essential element of your care and treatment. If you have any questions, please inform our front office staff or manager.
- As our patient, you are responsible for all authorizations/referrals needed to seek treatment in this office.
- Unless other arrangements have been made in advance, payment for office services are due at the time services are rendered. We will accept cash, check, Visa, MasterCard, CareCredit and American Express.
- Your insurance policy is a contract between you and your insurance company. As a courtesy, we will file your insurance claim for you if you assign the benefits to the doctor. In other words, you agree to have your insurance company pay the doctor directly. If your insurance does not pay the practice within a reasonable amount of time we will look to you for payment.
- All health plans are not the same and do not cover the same services. In the event your health plan determines a service to be "none covered," or you do not have an authorization, you will be responsible for the complete charge. We will attempt to verify if a referral/authorization is needed for services; however, you remain responsible for charges for any services rendered.
- Patients are encouraged to contact their plan for clarification of benefits prior to your visit.
- You must inform our office of all insurance changes and authorization/referral requirements. In the event the office is not informed, you will be responsible for any charges denied.
- For most services provided in the hospital, we will bill your health plan and any balance due is your responsibility.
- There are certain elective surgical procedures for which we require pre-payment. You will be informed in advance if your procedure is one of those. In that event, payment will be due one week prior to the elective procedure or surgery.
- There is a service fee of \$30 for all returned checks. Your insurance company does not cover this fee.
- As a patient/responsible party of Vaughn Podiatry Center, I accept the fee charged as a legal and lawful debt and agree to pay said fee, including any/all collection agency fees, (33.33%) attorney fees and / or court costs, if such be necessary.

## Do I Need a Test For PAD?

Peripheral Artery Disease (PAD) is a serious circulatory problem in which the blood vessels that carry blood to your arms, legs, brain and kidneys, become narrowed or clogged. It affects approximately 20 million Americans, most over the age of 50. It may result in leg discomfort with walking, poor healing of leg sores/ulcers, blood pressure that is difficult to control, or symptoms of stroke. People with PAD are at significantly higher risk of stroke and heart attack. Answers to these questions will help determine if you are at risk for PAD and if a vascular exam will help us better assess your vascular health status.
